

Charlie Daniels Band, Rainbow Ride

I traced my footprints through the sands of yesterday
Back the way I came I was returning
And then I saw me standing just across the river
Just across the bridge that I'd left burning
It was all reaching out to me
Now my reflection in the water's all I see
(Then it flew away)
Back to the laughing green of summer days
(Flew away)
Back to the chilly golden autumn haze
(Flew away)
To a place called yesterday
(Yesterday)
Come on in and sit down
It's good to be in your town
We're gonna take you for a rainbow ride
There's no excuse not to relax and get loose
And let us take you for a rainbow ride
It's been a long, hard day
But now it's time to play
