

Charlie Hall, My Brightness

Well, I've been hit from every corner
And I've been thrown from side to side
And thm cracks up on the inside
So I come to You for life
Your presence always heals me
So I wanna drink it in
You know where we're going, God
And You know where I've been
And your love is like a rock when I'm spinning
Your love is like a rock, when I'm spinning
Your love is like a rock when I'm spinning around
Yesterday I felt so angry
And today so insecure
And I hate it that I wrestle
With the God that I adore
Your presence always heals me
So I wanna drink it in
You know where we're going, God
And You know where I've been
And Your love is like a rock when I'm spinning
Your love is like a rock when I'm spinning
Your love is like a rock when I'm spinning
And I know less about You
But my heart loves You so much more
You're the bright in sadness
You're my brightness
I wish this thing could pass from me
But I'm wanting what You want
So bring me high or bring me low
Just hold me in Your love
And Your love is like a rock when I'm spinning
Your love is like a rock when I'm spinning
Your love is like a rock when I'm spinning
Your love is like a rock when I'm spinning
Your love is like a rock when I'm spinning
Your love is like a rock when I'm spinning
Your love is like a rock when I'm spinning around
