

# Charlie Landsborough, I Want Someone Who Will

I want some one who will love me  
You know she can reach out  
Who believes that I'm the one to be?  
That she can not live with out  
To walk beside me when the shadows  
Stops the light from getting thru  
I want someone who will love me  
Like I love you

Someone beautiful  
Someone kind  
Someone fitting your description  
Keeps walking thru my mind  
Keeps walking thru my mind

I want someone who will truest me  
Walk beside me everywhere  
Share the high ropes of my happiness  
And my valleys of despair  
Who will look into my gray skies?  
And convince me they are blue  
I want some one who will love me  
And I want it to be you

Someone beautiful  
Someone kind  
Someone fitting your description  
Keeps on walking thru my mind  
Keeps on walking thru my mind

Someone beautiful  
Someone kind  
Someone fitting your description  
Keeps on walking thru my mind  
Keeps on walking thru my mind
