

Charlie Landsborough, Like You Once Loved Me

Dont have to shout
I can plainly hear
I get your message
Loud and clear
You had enough of what we are
You dont know how we ever got this far
But I do
Cause I love you
Like you once loved me

When did your smile begin to die
When did your eyes start to wonder why
You ever found anything in me
You say its something of a mystery
But Im so blue
Cause I love you
Like you once loved me

Am I so different now from what I was
When you met me
What have I done that you can walk away
And forget me
I cant say the same
Youre the only flame
In my heart
Cause I love you
Like you once loved me

What did I do to break the spell
What turned our heaven into this hell
You say its over and you dont really care
Got now desire to get back where we went
But I do
Cause I love you
Like you once loved me
How you once loved me
Yes you once loved me
