

Charlie Landsborough, Love You Every Second

Down the years
There'll be days
When we must be apart
So I bought this small watch
For to measure the time
The inscription it carries
Comes straight from the heart
To remind you
You'll always be mine

CHORUS:
Love you every second
It's simple
But so true
Love you every second
Every second I live
I'll love you

When you feel
You're out fighting
This world on your own
Watch those hands turning round
And remember that phrase
While there's breath in this body
You won't be alone
So believe that old watch
When it says

REPEAT CHORUS:
Every moment is precious
So don't waste a one
For you'll never recover
A moment that's gone

Love can sometimes
Get lost
In an ocean of time
But my heart will not change
And I want you to know
You possess every drop
God allows to be mine
I decided a long time ago

REPEAT CHORUS:
Every moment of time
I'll love you
