

Charlie Landsborough, Marie

You brought me happiness
When I had none
Made me believe that I
Could be someone
Just like the sun you always shine for me
What am I gonna do
Now that I dont have you Marie

You over looked the fuss that others saw
You said they only made
You love me more
Some said it proved how blind
True love can be
What am I gonna do
Now that I dont have you
Marie

A traveler with no star
To guide me
A love song in search of a key
A prisoner of love
Locked inside me
Beggins to be free
Oh I lost it all
When I lost you
Marie

You where the sparkle
In this old fools eyes
And now my heart begins
To realize
Your love will turn into a memory
Where am I gonna go
After loving you so
Marie

What am I gonna do
Now that I dont have you
Marie
