

# Charlie Landsborough, Marie

You brought me happiness  
When I had none  
Made me believe that I  
Could be someone  
Just like the sun you always shine for me  
What am I gonna do  
Now that I dont have you Marie

You over looked the fuss that others saw  
You said they only made  
You love me more  
Some said it proved how blind  
True love can be  
What am I gonna do  
Now that I dont have you  
Marie

A traveler with no star  
To guide me  
A love song in search of a key  
A prisoner of love  
Locked inside me  
Beggins to be free  
Oh I lost it all  
When I lost you  
Marie

You where the sparkle  
In this old fools eyes  
And now my heart begins  
To realize  
Your love will turn into a memory  
Where am I gonna go  
After loving you so  
Marie

What am I gonna do  
Now that I dont have you  
Marie
