

Charlie Landsborough, Not A Day Goes By

Last night I dreamed You were by my side
I held you like I used to do
Then I awoke and finally realized
Not a day goes by that I don't think of you

I know I've said some things that I regret
I'm sure you've felt the same way too
And there are times I wish we'd never met
Not a day goes by that I don't think of you

Love is just something I don't understand
Tho I tried my hand a time or two
I don't remember how the feeling was
For anyone before or since I met you

She's growing up to be a lot like me
But I can see you in her too
There's not a day I don't look in her eyes
Not a day goes by that I don't think of you.

Love is just something I don't understand
Tho I've tried my hand a time or two
I don't remember how the feeling was
For anyone before or since I met you

Last night I dreamed you were by my side
I held you like I used to do
Then I awoke and finally realized
Not a day goes by that I don't think of you
Not a day goes by that I don't think of you
