

Charlie Landsborough, Peace Of Mind

Deep in the silence of the misty night
Broken by the lazy drone of an airplane in flight
Layin here beside you and the whole worlds right
Got that lovely little thing called peace of mind

Dreams are so much easier to fly
When the silence soothes you like a lullaby
And among the many things that money cant buy
Is that little thing called peace of mind

Little things have come to mean so much
But little things arent little things to me yeah
How do you weigh the love thats in your touch
The pleasure of a child upon your knee
I believe in gentleness and try to do no wrong
Conscious is clear and my heart is like a song
Everything is right cause Im right where I belong
And I posse that lovely thing called peace of mind

Little things have come to mean so much
But little things arent little things to me
How do you weigh the love thats in your touch
The pleasure of a child upon your knee
I believe in gentleness and try to do no wrong
Conscious is clear and my heart is like a song
Everything is right cause Im right where I belong
And I posse that lovely thing called peace of mind

Got that lovely little thing called peace of mind
I posse that lovely thing called peace of mind
