

Charlie Landsborough, Sunshine

Sunshine
So fine
To feel your friendly hand upon my skin
In June and July
Me and my girl watchin the world go by

Sunshine
Cloud Nine
Where I'm sailin when you look my way
Hey
I like your style
My spirits rise when you open eyes and smile
I get lazy when the heat gets hazy and shimmers
I find the spot
That's nice and hot
And I lay and I fry
And I kiss all my cares go bye

I get lazy when the heat gets hazy and shimmers
I find the spot
That's nice and hot
And I lay and I fry
And I kiss all my cares go bye

Sunshine
Guess I'm
Partial to the things you do with ease
Please
Don't go away
The world and me
We both agree should stay

I can't help it
I must admit
Summer suits me fine
Can't stand the cold
But I love that old sunshine

Can't stand the cold
But I love that old sunshine
