

Charlie Landsborough, You're Still Around

Trying so hard to forget
Making out that I've got no regrets
The more I try the worse it gets
You're still around.

Trying to chase you from my mind
But I'm still too scared to look behind
When I do I always find
You're still around.

Like a ghost that haunts me
You're always there
Like a ghost that taunts me
You're everywhere.

I'll dream on tenderly
Through my tears I know I'll always see
You smiling back at me
You're still around.

Like a ghost that haunts me
You're always there
Like a ghost that taunts me
You're everywhere.

Someone may speak your name
And my foolish heart burst into flame
Though you're gone the dream remains
You're still around.

You're still around.
