

# Charlie Louvin, I'd Be Glad To Help You Out

I just came in here tonight to get somebody off my mind  
I just want to be alone my heartache and my wine  
So if it's all the same to you my friend just be on your way  
I can see you've got problems but I've had my share today  
I'd be glad to help you out just show me which way you came in  
I've got troubles of my own in fact my world just fell in  
Your sad tellin' has touched but go tell it to a friend  
I'd be glad to help you out just show me which way you came in  
[ steel ]  
Now don't think that I'm so unconcerned about your happiness  
You need someone to talk to it help one to confess  
But your problems are so simple when you lay them next to mine  
So just mosey on now Mister you're just taking off my time  
I'd be glad to help you out...  
I'd be so glad to help you out just show me which way you came in
