

Charlie Louvin, Let's Put Our World Back Together

Let's put our world back together
Let's try our love one more time
Let's put our world back together
Without you in my world the sun won't shine

I've tried but I can't live my life without you
There's darkness in my world all the time
We had everything together then it just fell apart
I've lost my heart to you don't take my mind

Let's put our world back together...
For without you in my world the sun won't shine
