## Charlie Louvin, Month Of Sundays

Well I ain't been loved in a month of Sundays ever since you left me blue and lonely Tried to find somebody else but none would do

My poor heart keeps on a yearnin' for your sweet love just started burnin'

I ain't been warmed in a month of Sundays what about you

Well a month of Sundays don't seem long when they're filled with love that's strong But each one seems forever when you're blue

Well we both done a lot of things that we shouldn't

Could've made up but we just wouldn't

I ain't been loved in a month of Sundays what about you

[guitar - steel]

Well I traveled all over this big wide land looking for another just like I've planned

But no one that I found compares with you

Now I know I'll never love someone new baby do you feel the way I do

I ain't been loved in a month of Sundays what about you

Well a month of Sundays...
