

# Charlie Louvin, See The Big Man Cry

The other day I walked out on the street I happened to see  
A pretty young woman a little bitty boy and he looked back at me  
See the big man cry mama that's what I heard him say  
See the big man cry mama he looks like his heart will break

I followed them to the pupshop window the little boy stopped to see  
He looked up at her said if I had a daddy he'd buy that puppy for me  
See the big man cry mama...  
I wanted to tell him I was his dad and he sure had a pretty mom  
But the judge had said I could never see them for the things I've said and done  
See the big man cry mama...  
[ guitar ]  
Son as you'll grow older you'll find someone who is dear  
Just stick by her take care of her and you will never hear  
See the big man cry mama...
