

# Charlie Mars, Close To Home

Like a dream it was a night  
A silver moon and in it I  
Made my way back home

She said, "Tell me baby where you've been,  
And when you up and go again,  
This memory will keep you warm."

It's alright if you  
If you are like the stars behind the moon  
Always running from the sun  
Cause I am like a cat in the street  
Every shadow I meet  
Feels so close to home

Hit the floor, I hit the street  
And my feelings finally seem to meet  
The right side of the bed

As sure as the night  
Will fade into the morning light  
I'll be comin' round again

It's alright if you  
If you are like the stars behind the moon  
Always running from the sun  
Cause I am like a cat in the street  
Every shadow I meet  
Feels so close to home

Would you lay down your arms  
Because I fight for the right team  
Put away the time  
Take out your summer clothes  
Cause heaven knows I think the world of you

If you are like the stars behind the moon  
Always running from the sun  
Cause I am like a cat in the street  
Every shadow I meet  
Feels so close to home
