

# Charlie Puth, That's Not How This Works (feat. D

Thought, the day you disappeared, that it was over  
Didn't even hear you leavin'  
Saw you with someone and thought that it was closure  
But you still tell me that you need me

Baby, why?  
Tell me, why can't you just make up your mind?  
Quit messin' with my head

You can't say you hate me, then call me when you're hurt  
Baby, you know that's not how this works, no, that's not how this works  
You can't walk away, then come back to what we were  
Baby, you know that's not how this works, no

No, no, no, no, oh, no, no, no, no  
Baby, that's not how this works, no, that's not how this works, oh

Stop reminding me of when we said forever  
I know exactly what you're doing  
When you say you need to drop off all my sweaters  
It's just one of your excuses

Baby, why?  
Tell me, why can't you just make up your mind?  
Quit messin' with my head

You can't say you hate me, then call me when you're hurt  
Baby, you know that's not how this works, no, that's not how this works  
You can't walk away, then come back to what we were  
Baby, you know that's not how this works, no

Don't say that you're in love with me (Say that you're in love)  
'Cause I know it's not what you mean

You can't say you hate me, then call me when you're hurt  
Baby, you know that's not how this works, no, that's not how this works  
You can't walk away, then come back to what we were  
Baby, you know that's not how this works, no

No, no, no, no, oh, no, no, no, no  
Baby, that's not how this works, no, that's not how this works, oh  
No, no, no, no, oh, no, no, no, no  
Baby, that's not how this works
