Charlie Rich, A Very Special Love Song

Babe, somewhere I know I'm gonna find it Babe It'll have my love behind it And it will be a symphony of all you mean to me A very special love song

And Babe, If there's a way You know I'm gonna say it, Babe If there's a melody I'll play it and I'll play it through Especially for you And all the words are true A very special love song

So don't be surprised if your sitting alone And you hear it 'Cause I'm gonna sing it to the whole big lonely world So turn your radio way down low and get near it And I'll tell the world I love you girl

Babe, if there's an ounce of love I'm gonna give it to you Babe If there's a breath of life I'm gonna live it everyday for you And oh, the whole night through Singing just for you A very special love song For you
