

Charlie Wilson, Can't Live Without You

Ooh I

I can't live without ya. I can't live without ya.

[Verse 1:]

Girl you got me shook, after all of the fighting and the screaming snatched up the keys then you go
(why'd I let you go) I don't know how long it took but I know that I drove all around,

Trying to calm you down wouldn't answer my calls, now I'm scared girl where'd you go

Damn girl why'd you leave like that? whatever I said didn't mean it like that,

How you expect for me not to fight back when you scream like that, girl I love you more than that.

The other night at the club when I hit off a blunt. I love you more than that.

When I smile at a butt cause your all that I want.

[Chorus:]

I can't forgive myself if I hurt you girl what do I do. I can't live with ya, I can't live without ya.

And girl it breaks my heart if I broke your heart what do I do?

I can't live without ya girl I can't live without ya baby I don't care if I'm not alright

If I could just love you tonight I can't forgive myself if I hurt you girl what do I do I can't live with ya I

[Verse 2:]

Wish I could tell you how I feel, everything that I'm working for is yours

How could I ignore when I wanna be yours girl I slam the door (right on our love)

Girl a man don't understand the difference between a penny and a dime must of lost my mind

You and me was on the grind once upon a time (why'd I let you go)

[Chorus]

[Bridge:]

Girl when I find ya I'm gone stand right by ya girl your my life and I can't live without you

[Chorus]
