

# Charlotte Church, Easy Way Out

Want you to see my point of view  
I only want the best for you  
Understand Im not being cruel  
I see he treats you like a fool

Youve heard the truth  
Youve heard it all  
Youre trying to run but you cant crawl  
See nothings changed  
The situations just the same

Hes given you nothing  
But taken it all  
Youre taking the easy way out  
Ill say it again like Ive said it before  
Stop taking the easy way out

Each night you call, more tears again  
Time to except hell never change  
Its your life , your choice, your own despair  
But your burdens far to much to bare

You know the truth  
Youve heard it all  
Just trying to catch you before you fall  
See nothings new  
The situations up to you

You turn to me cause you cant see  
That theres a better way to be  
So close your eyes and say goodbye  
Youve got to give it up  
Turn around, walk away  
Dont look down
