

Charlotte Church, Moodswings (Come At Me Like

Now first of all I
Wanna let you know that
I've been known for some
Minor mood swings now and then
It all started back when
People were doing me wrong and
Because of my position
I would hold my tongue for them
Bad relationships
And people I thought were friends
And people judging me
Before they get to know a thing
When you decide to step to me
It shows me so clearly
You just want to see
See the other side of me
And you don't know what I'm going through
And you might think it's all about you
But it's everything I've been holding back
It's just bad timing to come at me like that
I try to keep my cool
Thus that's what I try to do but
It's so hard dealing with
People just like you
I try to walk away from
Situations that run
Into complications
That make me lose control
If I give in to you then
It's what you want me to do
And if I lose my cool
Then I'm only pleasing you
You know just how to push me
My temperature is rising
Blood pressure is building
I'm about to lose control
And you don't know what I'm going through
And you might think it's all about you
But it's everything I've been holding back
It's just bad timing to come at me like that
I'm sorry
Did I cross the line
I tried to warn you away
Way ahead of time
I'm so frustrated that I
Feel like I could cry
This could be the time
But I'm not going out like that
And you don't know what I'm going through
And you might think it's all about you
But it's everything I've been holding back
It's just bad timing to come at me like that
And you don't know what I'm going through
And you might think it's all about you
But it's everything I've been holding back
It's just bad timing to come at me like that
To come at me like that
To come at me like that
To come at me like that
