

Charlotte Lewis, Primary Objective

I found a polar bear at an excavation,
One of us named Miles,
he can talk to ghosts.
And we cant really say,
that rescuing your people today.
Is our primary objective,
Not our primary objective no.

Me Im an anthropologist,
unafraid to raise a fist.
And Daniel hes a physicist,
no classes of his are ever missed.
Jin says Dans crushin on me,
about that well just have to wait and see.
Miles he would never dare,
all he quips is define care.
And we cant quite say,
that rescuing your people today.
Is our primary objective,
our primary objective no.

We flew to the island as a science team,
yet since then enemies weve been deemed.
Just toughen up and get over it anyway,
cause were here to stay.
At least thats what I say.
To The Tempest Dan and went,
though we were never sent.
While Daniel typed extra fast,
knockin out Juliet was my task.
Then Sayid came on the Zodiac raft,
anyone want to go to the frieghter he asks.

Daniel volunteers to ferry them,
because the future looks quite dim.
As he leaves he waves to me,
on the shore I wish he would stay.
When he returns he says,
you must get on the raft.
I know what Keamys doing,
with his protocol witchcraft.
Yet I kiss Dan goodbye,
all he can do is leave with a sigh.
Never can we say,
that saving your people that day.
Was our primary objective,
not our real objective.
So will we find the key,
to unlock us from this eternity?
