

Charlotte Martin, Cloudbusting

I still dream of Orgonon
I wake up crying
You're making waves
And you're just in reach
When you and sleep escape me
You're like my yo-yo
That glows in the dark
Keep it special, keep it dangerous
So I bury it and I forget
Every time it rains
You're here in my head
Like the sun coming out
Ooh, I just know
That something good is gonna happen
On top of the world
Looking over the edge
I see them coming
You looked too small
In their big black car
To be a threat to the men in power
You're like my yo-yo
That glows in the dark
I can't hide you from the government
Oh God, daddy, I won't forget
But every time it rains
You're here in my head
Like the sun coming out
Ooh I just know
That something good is gonna happen
I don't know when
But just saying it will even make it happen
But just saying it will even make it happen
