

Charlotte Perrelli, Not Alone

I see courage
When you don't feel brave at all
The strength you have within can stop your fall
I feel magic that sorrounds every part of your soul
The love you keep within can make you whole
Let me help you
I am with you tonight
You're not alone
Turn your head, i am walking beside you
You're not alone
I am here just to carry you home
A helping hand for you to go on
I belive in you even if you don't
You're not alone
I see beauty
When the flaws are all that you see
The miracle in you is all you need
I feel sorrow
And your pain seems to cloud every day
But a healing heart can still show you the way
You're not alone
Turn your head, i am walking beside you
You're not alone
I am here just to carry you home
A helping hand for you to go on
I belive in you even if you don't
You're not alone
Let me comfort you
Let me help you through the clouds
I am holding you now
Got your back
And I'll help you to fight
You're not alone....
