

# Charlotte Perrelli, Show me a mountain

I've been drifting  
I've been lost and gone  
I was searching for what's right or wrong  
Of all the gifts that life has given  
There's nothing else like this  
I know this is my honest feeling  
And know what i missed  
Show me a mountain high enough  
And i will prove my love to you  
Show me a world where love is gone  
And i will find out what to do  
I know i can't walk alone  
I just wanna come back home  
Show me a mountain i can't climb  
I've been trying  
To forget the past  
How could i know  
That this love would last  
Every little thing reminded me  
Of the love we had  
Every little joyful memory  
Turned to something sad  
Show me a mountain high enough  
And i will prove my love to you  
Show me a world where love is gone  
And i will find out what to do  
I know i can't walk alone  
I just wanna come back home  
Show me a mountain i can't climb  
I wanna believe again  
I don't wanna be this way  
I wanna be close and then  
The pain will fade away  
Fade away  
Show me a mountain high enough....
