

# Charlton Hill, Crash Landed

Lost in the void,  
Its fresh and you know I want it.  
Hope rises up,  
I'm telling you its breaking hard.

She watched it crack  
But you're here now, you're here now

Crash landed, crash landed  
But you're here now, you're here now  
Crash landed, crash landed

Saw shadows fall  
But I find my own face in the crowd.  
Come lead the way,  
we're gonna run to the top and jump.

The call chime sounds  
But you're here now, you're here now...

Now you've taken me so far away,  
Give me relief from this wait this time,  
So far away
