

Charly Garcia, Happy And Real

Sometimes you feel happy and real
Sometimes you're sad
Feel the disease but if you laugh sometimes
Just like everybody, say goodbye
You came along, you came to me
Look at the sand, look at the sea
But don't look into my eyes
'Cause I say hello, don't say goodbye
This is the real connection
This is the last reflection
This is the way I feel
This is the love I dream tonight for you
When the time is right
And you know it too
What matters if they say
You play the fool

Sometimes you look
All the world through
Sometimes you have
The sky in you
You look so pretty now
You're my princess
You're my love in time
Sometimes you feel like me
Sometimes you just kiss me
And I feel free
(Thank you, baby)
Sometimes I feel happy
And I feel blue at the same time
And you too
