

Charly McClain, That's What You Do To Me

Love me high, love me low.
Love me till I don't know which way to go.
That's what you do to me,
Whoa, that's what you do to me.

Love me wrong, love me right.
Got me long before you offer the night.
That's what you do to me,
Whoa, that's what you do to me.

Your love is like a river, an' somewhere in the middle,
We're caught between your heart an' your hand.
Each time I think it's real, it's such a helpless feelin',
With you I never know where I stand.

Just a touch takes my desire,
From your fryin' pan right into your fire,
That's what you do to me,
Whoa, that's what you do to me.

Instrumental break.

Your love is like a river, an' somewhere in the middle,
We're caught between your heart an' your hand.
Each time I think it's real, it's such a helpless feelin',
With you I never know where I stand.

Just a touch takes my desire,
From your fryin' pan right into your fire,
That's what you do to me,
Whoa, that's what you do to me.

That's what you do to me,
Whoa, that's what you do to me.

That's what you do to me,
Whoa, that's what you do to me.
