That's What You Do To Me (1978)

Love me high, love me low

Love me till I dont know which way to go

Thats what you do to me whoa thats what you do to me

Love me wrong, love me right

Got me longing for you all through the night

Thats what you do to me whoa thats what you do to me

Love is like a riddle and somewhere in the middle

Caught between your heart and your hand

This time I think its real its such a hopeless feeling

But you will never know where I stand

Just a touch takes my desire

From youre frying pan right into youre fire

Thats what you do to me whoa thats what you do to me

Love is like a riddle and somewhere in the middle

Caught between your heart and your hand

This time I think its real its such a hopeless feeling

But you will never know where I stand

Just a touch takes my desire

From youre frying pan right into youre fire

Thats what you do to me whoa thats what you do to me

Thats what you do to me whoa thats what you do to me

Thats what you do to me whoa thats what you do to me

Thats what you do to me whoa thats what you do to me
