

Charly McClain, With Just One Look In Your Eyes

I read the headlines
I see the hard times
I wonder if we'll survive
But I know there's no worries
With just one look in your eyes
I work 40 hours to bring home a dollar
At times it barely keeps us alive
But I know there's no worries
With just one look in your eyes
With just one look in your eyes
I see someone who believes in me
Till the end through thick and thin
With just one look in your eyes
I know, no matter how far down I go
You lift me up, up, again
With just one look in your eyes
One look in your eyes
So I make you a promise
When it rains down on us
We'll always have blue skies
I know there's no worries
With just one look in your eyes
With just one look in your eyes
I see someone who believes in me
Till the end through thick and thin
With just one look in your eyes
I know, no matter how far down I go
You lift me up, up, again
With just one look in your eyes
One look in your eyes
With just one look in your eyes
With just one look in your eyes
I know there's no worries
With just one look in your eyes
