

Charmed, My Heart Goes Boom (Eurovision Song

Wooh!

Summer, Saturday and sunshine

Suddenly I saw you there

A stunning sight from God knows where

You were standing in the shadows

Looking quite impossible

I lost my mind and popsicle

A radio was singing

Something blue in perfect tune

Half a look over your shoulder

I couldn't keep from staring back at you

My heart goes boom

When I see you baby

Don't you tell me maybe

It can never be too soon

My heart goes boom

Put your arms around me

Say you're glad you found me

Take me spinning 'round the moon

My heart goes boom

Summer, Saturday, and sunset

You said 'hello' and I said 'hi'

And something lit the evening sky

You came out of the shadows

With a teasing twinkle in your eye

And took my senses for a ride

A radio was playing

Something slow in perfect tune

Half a smile as you sat down

I couldn't seem to keep my eyes off you

My heart goes boom

When I see you baby

Don't you tell me maybe

It can never be too soon

My heart goes boom

Put your arms around me

Say you're glad you found me

Take me spinning 'round the moon

(My heart goes boom)

A radio was singing

Something blue in perfect tune

Half a look over your shoulder

I couldn't seem to keep my eyes off you

My heart goes...

My heart goes boom

When I see you baby

Don't you tell me maybe

It can never be too soon

My heart goes boom

Put your arms around me

Say you're glad you found me

Take me spinning 'round the moon

My heart goes boom

Oh baby!

My heart goes boom
