

Chasen, Desires

I'm in tangles over you
I've been searching
For something new
I've found a desire
That is all true
And that desire
Is only You
It's more than a feeling
When You are the meaning
Of every dream
And every heartbeat
You are, You are, You are
My shining star
You are, You are, You are
The love of my life
You're my desire
On my knees again
Just praying for You
Crying out again for a love
That's more than a feeling
When You are the meaning
Of every dream
And every heartbeat
You are, You are, You are
My shining star
You are, You are, You are
The love of my life
And You held my hand
Through the fire
You're my desire
You are, You are, You are
My shining star
You are, You are, You are
The love of my life
You are, You are, You are
My shining star
You are, You are, You are
The love of my life
And You held my hand
Through the fire
You're my desire
