

Chasen, You And I

Molded to everything
You say and do
It's a lover's code
As we grow closer
There is nothing
Wrong with me
It's what I believe
You, You got to be
My one and only love
At first sight
There's something about you
That's for sure, whoa
Time will only mean
That you and me
We belong together
Second chance, sweet romance
Belongs, belongs to you and I
So call it what you will
This love just won't stay still, no
There's hope, relief up there
Release your bitter fear now
We are not alone
And your heart
Is where I call home
[Repeat Chorus]
My heart, my life
I sold to you and only you
So I will never fall from you
[Repeat Chorus]
