

# Chasing Victory, Brides

Don't be jealous. Don't be mad.  
We've got a lot to learn. We've got a lot to lose,  
so just take it back.  
Breathe slowly, come closer.  
You've got a pretty set of eyes now,  
Baby, and that's the reason why I chose you.

[Chorus: x2]

Don't scream at me, just breathe baby.  
Take me by the hand, take me by the heart.  
You'll never wanna' stop once the lovin' starts.

I've been trying to tell you all of the things that I meant  
When I said "I do"; I do.  
You play these games to get my attention.  
You wanna' start, stop, start, stop,  
All of the things you know we never should mention.

On our wedding day, this angel will grow her wings.  
And you'll never have to hear me say.

[Chorus x2]

Oh baby you look so good when you move.  
I can't break it up, it just breaks me down.

[Chorus x2]
