

# Chassis, Wide Eyes Open

Words unspoken always given pain  
Fulfil my last will and change it day by day  
All what will happen to me, when I fall down  
If I deserve this let me find new life!

With wide eyes open!  
In the falling rain!  
Alone in darkness!  
I am calling my friends!  
Loneliness...  
In my head like lullaby  
Waiting, spent my time, is passing by  
I'm waiting  
Will my time release my pain?  
Lonely in the falling rain

Hands are shaking from the fear and cold  
Oh, can you hear me laud, my words untold  
Whatever happen to me I won't complain  
Please let me live my life in everyway!!!

With wide eyes open!  
In the falling rain!  
Alone in darkness!  
I am calling my friends!  
Loneliness...  
In my head like lullaby  
Waiting, spent my time, is passing by  
I'm waiting  
Will my time release my pain?  
Lonely in the falling rain

Release my pain  
Release my pain

...and call my friends....
