

Che Fu, Fade-Away

**

No, I never thought I'd see the day
When you would get up out of here
So, long-time friends, we remain the same
Until you return one day, I would say...

Chorus:

I would never fade away on you
I would never fade away
I would never fade away on you
I would never fade away...

I'm still thinking of when we used to chill
And reason til the morning sun
So, we'd talk of places never seen before
Who would think you'd be the one to go...

Bridge:

Out there, over mountains, oceans
Highways, byways - still you're thinking I'm there
With you, tag team, us two, straight through
That's why I stay strong to you, so

Chorus x2

No I never thought I'd see the day
When I would get up out of here
So, long-time friends, we remain the same
Until I return one day, I will say

Chorus x2

Until we go... Bridge

Chorus X2

**
