# Che Fu, Top Floor Of The World

This for when we used to say,
fight the good fight,
This for when we would defend our peoples light,
hold that look again,
then the home team might win,
I got your back cuz give me a sign of trust,
if you could,
hold that look again with a mind like smooth lightning
I feel safer I'd be better nature

If there was someone that I knew
on the top floor of the world,
may be I wouldn't act on cue,
like all those times before, oh,

I'm out on a limb I'm standing out,
don't care who sees,
convincing myself before someone else confuses me,
not to hold that look again
so the home team might win
I got your back cuz give me a sign of trust,
if you could,
hold that look again with a mind like smooth lightning,
I feel safer I'd be better nature

If there was someone that I knew on the top floor of the world
maybe I wouldn't act on queue, like all those times before
If there was someone that I knew on the top floor of the world
maybe I wouldn't act on queue, like all those times before, oh

To big myself up me no need no inferiority complex,
could ever cloud my dreams,
when Storm comes
Xavier merely called a meeting for a fleeting moment,
refract the light with me convex lens for focus,
stay tuned to this T.V M.C
cos we rocking world wide
we coming 'round the country,
too many front row seats for non paying,
M.C's eagerly awaiting, sedated,
masses of eyeballs and flesh in a trance
ready to make you hoooo
by the next broadcast but what ?
representing from my own satellite
Villajahs reruns all night emitting the signal
a galaxy to explore we boldly flow
where all Rastas flow before
never alone role with crew boys
come phat big budget large movie
with full cast no intermission
strictly Ital-ness from the start Judah
the functioning of the heart what what what

If there was someone that I knew
on the top floor of the world,
may be I wouldn't act on queue,
like all those times before,
If there was someone that I knew
on the top floor of the world,
may be I wouldn't act on queue,
like all those times before, oh
