

Cheap Sex, Wars No Game

You - You got nowhere left to run
The battle is on and the war has begun
Smoke clouds are rising in the air
And a mother cries in death's despair

[Chorus:]

Wars no game - You can not win
Wars no game - No you're never gonna win
Wars no game - You can not win
Wars no game - No you're never gonna, never gonna win!

Can you see the missiles overhead?
The limbs are blown off and the blood is running red
You are dying for an unknown cause
Well war is no game and no you can't hit pause.
