

Cheap Sex, Written In Blood

The leaders today have their finger on the button
Mistakes of the past now have long been forgotten
God's name is used as an excuse to kill
The leaders play games while the people's blood spills.

[Chorus:]

Our history is written, It's written in blood
Our history is written, it's written in our blood

See the soldiers on the field getting blown to bits
While dying for leaders who don't know they exist
And over religion this world has been torn
And for our religions our blood spills in war.

[Spoken:]

The prayers that you speak
In Sundays at mass
Do you really mean them
Or are you blowing it out our ass?
With a gun in one hand
And a bible in the other..
Make sure to ask forgiveness
Before killing your brother..
