

Cheap Trick, Don't Make Our Love A Crime

Words and Music by Rick Nielsen

Give me passion, I'll make it good

I'm not crazy, just misunderstood

And I wanna be caught with you

Oh yeah

I've been framed all my life

Didn't do it, I'm no enemy

Now I wanna be blamed with you

Oh no

Don't you make our love a crime

Please don't make our love a crime

If you do we'll all regret it in time

So don't you make our love a crime

You murdered just a part of me

I'm still alive and breathin' free

I wanna be punished with you

I know what you're goin' through

You gave me a fatal bite

I wanna spend my time with you, you, you

Don't you make our love a crime

Please don't make our love a crime

If you do we'll all regret it in time

So don't you make our love a crime

I know what you're goin' through

It's happened to me once before

And I know what you're gonna do

I wanna spend some time with you

It's stronger than it was before

And I've saved it up for you, you, you

Don't you make our love a crime

So please don't make our love a crime

If you do we'll all regret it in time

So don't you make our love a crime

A crime, no

(Ad-lib Repeat to Coda)
