

Cheap Trick, Give It Away

You know they say you best be careful what you're lookin' for
Everything you want in life, to the girl next door
Well, it could happen to you now any day
When someone you don't know could blow you away
Better watch out who you trust
And be careful what you say
'Cause you know you got too much
To give it away, give it away, give it away, give it away
Along came Mary Jane and her friends, knockin' at your door
Lookin' for some long term suckers, like she's had before
Did you notice me as I noticed you from your face
Don't look so long 'cause' you're gone from your place
Better watch out who you trust
And be careful what you say
'Cause you know you got too much
To give it away
Now I don't care where you come from unless you do or say
'Cause you've got way too much to give it away
Something clicked and you're kickin' today
Something kicked in today
Feels so good it feels just right
Gotta find that fun everyday
Don't give it away, give it away
Give it away, give it away
Don't throw it away, give it away
Don't dream it away, give it away
