

Cheap Trick, Pop Drone

If I ever get back home again
If I ever get back to you
I won't care if the sun never shines
'Cause you're all I want to do
All that days in front of us won't get left behind
'Cause I can see just fine around you
Sorry I'm not colorblind I can see just fine
I can see just fine around you
Maybe I'm just colorblind I can see just fine
Sorry I'm just blind around you
All I want is you, all I want is you
If I ever get back home tonight
If I ever get lost in you
I won't care if the moon never shines
You're all I want to do
All that lays in front of us won't get left behind
'Cause I can see just fine around you
Sorry I'm not colorblind I can see just fine
I can see just fine around you
Maybe I'm just colorblind I can see just fine
Sorry I'm just blind around you all I want is you
Sorry I'm just colorblind I can see just fine
I can see just fine around you
Maybe I'm just colorblind I can see just fine
Sorry I'm just blind around you
All I want is you, all I want is you
All I wanna do, all I wanna do
