

# Cheap Trick, Southern Girls (Single Version)

I've been north, I've been east to the California beach  
There's only one place I know where to find you  
And all you Southern girls got a way with your words and you show it  
You say hump and I'll jump, you say go and I'll know  
Waste no time getting so close to you  
And you'll never run away when you find why I wanted to find you  
Ooh baby, need some brand new shoes  
Get out on the street, you got nothing to lose  
You rock me and you're crazy and everyone says it  
Southern girls, you got nothing to lose  
Southern girls, you got nothing to lose  
I've been up, I've been down, I've been weak, I've been strong  
But I never met someone like you  
And you'll never run away when you find why I wanted to find you  
You say hump and I'll jump, you say go and I'll know  
Waste no time getting so close to you  
All you Southern girls got a way with your words and you show it  
Ooh baby, need some brand new shoes  
Get out on the street, you got nothing to lose  
You rock me and you're crazy and everyone says it  
Southern girls, you got nothing to lose  
Southern girls, you got nothing to lose  
You think this boy, he loves you  
Southern girls, you make it hard oh, so hard  
I've been north, I've been east to the California beach  
There's only one place I know where to find you  
And all you Southern girls got a way with your words and you show it  
Ooh baby, need some brand new shoes  
Get out on the street, you got nothing to lose  
You rock me and you're crazy and everyone says it  
Southern girls, you got nothing to lose  
Southern girls, you got nothing to lose  
Southern girls, you got nothing to lose  
Southern girls, you got nothing to lose
