

# Cheap Trick, Wild Wild Women

Lookin' out for something special  
Something crazy to call my own  
Worked all week, now that it's over  
Yes, I'm ready to bring it on  
Driving to me, it'll be easy  
After all that's what it's for  
If the fire's too hot, get out of the kitchen  
Or do it, do it, do it on the floor  
So get out now before it's too late  
Don't bring me down, don't you wait too long  
Wild, wild women, make the world go 'round  
Wild, wild women, wild, wild girls  
Kick your heels, set in motion  
After all they never stop  
Feels so good, must be illegal  
That's no reason to call the cops  
She goes crazy in the corner  
Like some forward flash  
No problems, no headaches  
No troubles, that's the best  
So get out now before it's too late  
Don't bring me down, don't you wait too long  
Wild, wild women, make the world go 'round  
Wild, wild women, wild, wild girls  
So get out now before it's too late  
Don't bring me down, don't you wait too long  
Wild, wild women, make the world go 'round  
Wild, wild women, wild, wild girls  
Wild, wild women, make the world go 'round  
Wild, wild women, wild, wild girls  
Wild, wild women, never slow me down  
Wild, wild women, wild, wild girls
