

# Cheat Codes, Put Me Back Together (feat. Kiiara)

I never met nobody  
who sees the stars the way you do  
nobody that can love me  
When I'm stumbling around the room  
you put your hands around my body  
And you give me that room  
And I know that you got me  
When I'm falling into you

you take me high  
I;m dropping low  
and you show me places I never know  
Even when we just running around town getting stoned  
boy, you put me back together again  
a coca cola Hennessey  
everybody say you're no good for me  
but you're my fucked up remedy  
boy, you put me back together again

put me back together again

when you're lying with me on the car hood  
sharing such a sweet dream  
you make me feel so classy  
Like I'm an L.A. queen  
You don't care that I'm broken  
You don't care that I'm me  
you just say that I'm caught in  
like a Jesus on this piece

you take me high  
I;m dropping low  
and you show me places I never know  
Even when we just running around town getting stoned  
boy, you put me back together again  
a coca cola Hennessey  
everybody say you're no good for me  
but you're my fucked up remedy  
boy, you put me back together again

put me back together again

you take me high  
I;m dropping low  
and you show me places I never know  
Even when we just running around town getting stoned  
boy, you put me back together again  
a coca cola Hennessey  
everybody say you're no good for me  
but you're my fucked up remedy  
boy, you put me back together again
