

Checked Soul, Daydream

1. Im flying through the clouds
On my old blue bike
Im dancing on the milky road
Im sitting on the moon
And netting the stars
Where I am if Im not dreaming?

Chorus:

But when you take my hand
I feel like in a daydream
Lights are shining,
Musics playing
everybodys going around
We all want to touch the floor
We all want to taste some more
Until well wake up

Tonight

2. The wind is blowing on
It carried my home
I havent got any place to go
I try to catch my clothes
Suddenly theyre gone
Im naked in front of audience

Chorus:

But when you take my hand
I feel like in a daydream
Lights are shining,
Musics playing
everybodys going around
We all want to touch the floor
We all want to taste some more
Until well wake up

Tonight

And when there will come a time
To face the reality
Well do it with a smile
And we will win
We wouldnt be afraid
Cause our place is in dreams

Chorus:

But when you take my hand
I feel like in a daydream
Lights are shining,
Musics playing
everybodys going around
We all want to touch the floor
We all want to taste some more
Until well wake up

Tonight
