

Cheetah Girls, Cherish The Moment

La, la, la, la's...

Ooh baby, cherish the moment

La, la, la, la's...

You, you know the kind
That finger point and criticize

They can't see or read the signs
That life is really bigger than you and I
But in time (Oh time) they realize
They can't see through
We should all

Chorus:
Cherish the moment, live for today
We all get lost, just don't lose your way
We all love the sun, but we still need the rain
So what good is it to complain
It don't change a thing

In this world there's a flow
You can feel it if you just let go

And it wants to fill your heart
It will happen if you just don't try so hard

Break it down, hear the sound in your soul
Let it surround all of you, we should just...

Chorus

There's only so much time so why not enjoy it

Why not enjoy the ride, the ride

La, la, la, la's...

Ooh baby, cherish the moment

Chorus (Repeat 2x)

La, la, la, la's...

Ooh baby, cherish the moment

La, la, la, la's...

You, you know the kind
