Home Sick

Six hours behind, the changes of time

Ten thousand miles from home

I'm so far away, so long it seems like

This road is all I know

When I was young I dreamed of adventure

And places I'd never seen before

But when I close my eyes at night

All I dream of now is home

Chorus:

So long, that I've been gone

If there's one thing I know

Is that there's no place like home

Far away, it changes everyday

If there's one thing I know

Is that there's no place like home

Six months since the day I went away

It didn't seem like that long

It hit me when I was changing planes

From Paris to New York

I'm dreading the days that are ahead

I haven't slept in my own bed

Oh, I'm dreamin' of home

What I've seen and what I've done

Don't mean a thing without where I come from

Who I am and all I ever did

Home is where the heart is (where the heart is)

(Chorus)

Call me, tell me that you miss me

Give me somethin', I can

hold onto (?) the days when I had

(?) to take another moment

(?) I need some clarity

Remind me what it's like to be

There's no place like ho-o-ome

Far away

There's no place like home

I wanna go home, home, home (I know x5)

Bring me back home, home, home (He-e-e-ey)

Home, Home

So long, that I've been gone

If there's one thing I know

Is that there's no place like home
