

# Cheetah Girls, The Party's Just Begun

Start the party up  
Hit the groove  
Celebrate's what we're here to do

Crank the music  
Now's the time  
All of us are here tonight

Somethin' new 'cause we're  
Movin' on  
We've been thinkin' 'bout it all year long

Got the right moves  
Cheetah Girls  
Here we go...gonna rock the world

Chorus:  
Party 'cause you know the future's all yours  
Dance 'til your feet don't touch the floor  
Celebrate the day you've waited for  
Party like you're ready for so much more  
Do it like you know it's never been done  
Go a little crazy, have too much fun  
Today's the day, c'mon everyone  
The party's just begun

I know you're feelin' this  
Put your hands up if you're feelin' this

I'm feelin' it, girl

I know you're feelin' this

Everybody get up

Here we go

Everybody now  
Make some noise  
All the girls, now all of the boys

Don't 'cha know we got it  
Goin' on  
All together we belong

Fun to be young  
That's the truth  
Lookin' good with a new attitude

Turn the party out  
Time to shine  
Cheetah style, we're doin' it right

Chorus

We can do anything  
Everything we wanna  
Finally we get the chance

Everybody wanna celebrate  
Let the party never end  
Ready for the summer holiday

Anticipating what's ahead

Now we're better than we've ever been  
And ya know we do it right  
Acapella now, bring it in  
Come on girls, one more time

Chill it out...break it down  
That's the way we do it now  
Attitude...in the groove  
Gettin' into somethin' new

Say goodbye to yesterday  
Future lookin' good to me  
All together...raise your hands  
Time to party...time to dance

Dance Breakdown

Chorus
