

# Chely Wright, Heart Shaped World

Columbus said the world was round  
Back when everyone said it was flat  
Just between me and you and the man in the moon  
Baby, it ain't anything like that

[Chorus:]

'Cause were living in a heart shaped world  
Our head in the clouds, but our feet on the ground  
Yeah, we're living in a heart shaped world  
Don't you know baby, love makes the world go 'round

Now, satellite pictures sent back to earth  
Shows a big, blue ball floatin out in space  
We've got a vision, yeah, and we're on a mission  
To tell the whole planet it ain't that way

[Chorus]

Don't you know baby, love makes the world go  
Don't you know baby, love makes the world go 'round
